PROFESSIONAL SUMMARY

Software Developer with hands-on experience building full-stack web applications using Python, Django, and JavaScript/React. Skilled in Data Structures & Algorithms, Object-Oriented Programming, and SQL, with 250+ problems solved across coding platforms. Strong foundation in backend development and collaborative, version-controlled development workflows using Git and GitHub.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Backend: Django, Django REST Framework

Frontend: React, HTML, CSS

Databases: MySQL

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, Problem Solving

Tools: Git, GitHub

EXPERIENCE

Developer Intern — Dhee Coding Lab

- Developed full-stack web applications using Python, Django, HTML, CSS, JavaScript, and React, working across both frontend and backend layers.
- Built and delivered frontend and backend mini-projects as part of full-stack development work, applying Django for backend logic and React/HTML/CSS for user interfaces.
- Managed source code and collaborated with team members using Git and GitHub for version control and project tracking.
- Strengthened problem-solving and collaborative development skills through team-based project work.

PROJECTS

Quantum-Resistant Cybersecurity System

Sep 2025 – Jan 2026

- Built a secure web application using Python, HTML, CSS, and JavaScript, focused on cybersecurity fundamentals and secure data handling.
- Designed and implemented the user interface while contributing to backend performance improvements.

Online Shopping Website

May 2024 – Jul 2025

- Developed a responsive e-commerce website using HTML and CSS, building reusable product layout components.
- Created product pages and responsive layouts that improved mobile usability across multiple screen sizes.
- Strengthened frontend development, responsive web design, and UI structuring skills.

CODING & TECHNICAL ACHIEVEMENTS

- Solved 250+ coding problems across coding platforms, including 160+ on LeetCode, demonstrating consistent practice in Data Structures and Algorithms.
- Earned Python and SQL certifications on HackerRank.
- Practiced Python, Object-Oriented Programming, Data Structures & Algorithms, and SQL through continuous coding and problem-solving.

EDUCATION

M.S. Engineering College, Bengaluru

2022 – 2026

Bachelor of Engineering (B.E.) in Computer Science and Engineering | CGPA: 8.0

BGS PU College, Magadi

2020 – 2022

PUC – PCMCS | 80%
